

## STANDARDS – REGULATIONS – TESTING – CERTIFICATIONS

Engineering Seminar on 25th and 26th July 2018 at New Delhi

SRTC 2018 , Two Days Seminar / Workshop will be a vital event for the Electronics Industry in India covering all aspects of **Standards, Regulations, Testing, and Certifications** both Indian and international as a knowledge transfer program.

The Seminar will address new regulatory changes in India and downturn the uncertainty amongst foreign manufacturers / exporters to India. While within India it will serve the local Industry to get first hand updates from the Regulators and also devote exposure to International Standards, Testing and Certification processes. Local manufacturers and Test labs can leverage from this event to meet international delegation, to setup facilities which not only service local clients but also have potential to Manufacture and Test for international clientele.

For foreign manufacturers who export to India it is a unique opportunity to meet all Indian stakeholders under one roof and understand the growing Indian electronics manufacturing ecosystem.

**The event is a sincere attempt to Create Awareness and bring the International manufacturers, testing, instrumentation and certification experts to India, all of the Indian electronics Industry including test labs and certification specialists AND the local Government Regulators together under one roof.**

The key is "**Knowledge exchange**", a great networking opportunity, we believe is unprecedented and of great outcome to the entire Indian and International Electronics Industry.

So, "**Make in India**" drive extended to "**Test in India**", a sure thing for the Indian economy.

**Seminar Highlights:** A draft agenda of this purely Technical Seminar/Workshop will be shared shortly.

- **A 2-Day Seminar with Indian and International Expert Speakers**  
**Indian Speakers:** Ministry, TRAI, Indian Regulators (TEC, BIS, WPC, BEE), Electronic Industry Associations, Indian Test Labs, Certification reps, etc  
**International Speakers:** American, European and Asia-Pacific testing and certification experts, Test labs, Test Equipment manufacturers, Product manufacturers/exporters.
- **A separate demo Workshop**  
Where a great opportunity is created to interact one to one with manufacturers and test labs. Display of latest state-of-art Test equipment for pre-compliance and full compliance testing of EMI/EMC, Safety, Telecom, Radio, RF Exposure SAR.
- **An environment for Networking**  
There will also be a Socials cocktail night on 25th July after the Seminar which is open to all Delegates and Guests without additional cost

**Venue:** Location is New Delhi, India. The Venue Hotel details along with special packages for early room bookings, guide to Tours etc will be shared shortly.

**The Event is purely based on Pre-registration** and limited to a certain capacity of delegates. We urge you to register your interest at earliest by sending email to: [info@toredofairsindia.com](mailto:info@toredofairsindia.com)
